Report of Mayor

To the Citizens of Berlin:

In this annual City Report, your elected officials and appointed city executives render an account of their stewardship during the past fiscal year. I commend to each one of you the careful reading and evaluation of this report, which shows you what services your city provides for you, and the cost of these services. An informed and alert electorate is an essential element of efficient democratic government.

In my capacity as Mayor, it has been my privilege to observe, over a period of years, the effects of a sound policy of government, which can be stated simply as "the utmost in service for the price we are able to pay." There is a definite limit to the amount a home-owner and a business man can pay in taxes. Within this limit, we have to provide for all essential services, and do as much new work as the remaining funds will allow. Let me review with you the results of the past two years.

The cost of essential services is still rising. Our county tax, due to a revision in the basis of assessment, was increased by \$29,000 in 1955. A general wage increase for all city employees, in line with industrial increases, has affected departmental budgets all along the line. The school budget, for instance, was increased by \$18,000 last year. The wage increase went into effect last September, thus affecting only five months of 1955, but 1956 will reflect it for the full year.

Last year, we did about twice the usual amount of street re-surfacing. With increasing emphasis on snow removal, it is not generally realized that in addition to the cost of removing the snow, we have greater damage to our streets. The cushioning effect of the snow is lost, and with the ever-increasing heavy trucking on our streets, Winter damage can be severe.

REPORT OF MAYOR

Our moderate tax rate has encouraged home ownership and the building of new homes for our increasing population. During the past two years we have welcomed some 200 new members to the roster of property tax payers, but since most of the new construction has been in new developments, it becomes necessary for the city to provide them with more than words of welcome. They need new streets, new sewers, new water connections. During that period, we installed about 16,000 feet of new sewers, and built about 3,800 running feet of new sidewalks.

Our Airport, which I believe will become an increasingly important asset to the city, was reconditioned at a cost of \$25,000, of which the Federal and State governments paid three-fourths.

In doing all this, we have been able to maintain the tax rate at \$47, and in the two years we have reduced the bonded debt by \$95,000 and the net city debt by \$38,000. The bonded debt is now down to \$173,000, a very moderate amount for a city of this size. As we reduce the debt, we also correspondingly reduce the interest charges included in our budget each year.

May I express here my sincere appreciation to all the members of our city government, whose co-operation made possible the steady progress of the past two years.

Respectfully submitted,

AIME TONDREAU,

Mayor

BEARD GROWING FOR CHARITY BY CITY OFFICIALS (see next page)

A recent Community Club drive saw Berlin citizens growing beards in an effort to raise additional money for the local youth center. Among the more than 100 members of "Shaveless, Inc." were the following city officials, pictured on previous page: Front row, left to right, Maurice Belanger, overseer of the poor; John Sullivan, councilman; Mayor Aime Tondreau; Ronaldo Morin, councilman; and Robert Murphy, school board. Standing, Arthur Thomas, councilman; James Cryans, city clerk and Charles Jeskey, councilman.

Report of Building Inspector

February 1, 1956

Berlin, N. H.

To His Honor, the Mayor, the City Council of the City of Berlin.
Gentlemen:

I herewith submit my report as Inspector of Buildings for the year ending January 31, 1956.

There were issued during the year, 249 permits with a total estimated value of \$685,550.00.

These permits divided as follows:

70 permits new homes	\$588,000.00
45 permits new homes, cost unknown.....	
25 permits additions	55,200.00
12 permits additions cost unknown.....	
31 permits repairs	33,350.00
24 permits repairs cost unknown	
15 permits one car garage.....	6,900.00
10 permits one car garage cost unknown	
5 permits two car garage	2,100.00
6 permits two car garage cost unknown.....	
1 permit three car garage.....	200.00
1 permit three car garage cost unknown	
1 permit four car garage	1,200.00
1 permit five car garage	2,300.00
1 permit five car garage cost unknown	
1 permit six car garage.....	1,000.00
10 permits neon sign	

Two major projects were started in 1955, these are the new wing at the St. Louis Hospital, at a cost of about \$550,000.00, also the new Kraft Pulp Bleachery, at the Brown Company at a cost of \$3,500,000.00.

Copies of all permits issued are on file at this office.

I wish to express my appreciation to the Mayor, City Council, City Officials, Building Contractors, and the Public for their cooperation.

Respectfully submitted,

REPORT OF HEALTH OFFICER

To His Honor, the Mayor, the City Council and the Members of the Board of Health:

I herewith have the honor and privilege to submit the city's forty-fifth annual report of the Health Department activities for the year ending December 31, 1955.

Permit me to acknowledge with sincere appreciation the unending support and cooperation received; and also the profound interest taken by you Mr. Mayor, members of the City Council, the Public Health Committee, and the members of the Board of Health.

I wish to acknowledge also the splendid cooperation received from the members of the medical and dental profession; the hospitals, official and un-official organizations and social agencies, school officials, the press, the radio, the public spirited citizens, and last but not least, the loyal staff.

DEPARTMENTAL FUNCTIONS**I-Medical Service**

1. **VENEREAL DISEASE.** The control of all such diseases can best be accomplished through the cooperation of all physicians and citizens of the City of Berlin. Information regarding all cases remains strictly confidential; such as required by state statute.
2. **TUBERCULOSIS.** The New Hampshire Tuberculosis Association, active in the fight against tuberculosis in this state, conducted 4 clinics in Berlin during the year. 3 cases of active tuberculosis were found in our community. They are currently receiving treatment.
3. **IMMUNIZATIONS.** For immunizations see section **D** under Administrative Functions.

NOTE: Biologicals are stored at the Health Department and are available, free of charge, to all physicians of this city.

4. NURSING SERVICE

A. **District Nursing**—The City of Berlin is divided into two separate districts, namely District No. 1 and District No. 2.

We have 2 district nurses servicing the entire community. District Nurses assist the physicians at all Maternal and Child Health Clinics and all other immunization clinics sponsored by the Health Department.

District 1 & 2 Child Hygiene Totals

No. of patients.....	784	470	1254
No. of visits.....	2483	1073	3556

B. Parochial School Nursing Service—Two school nurses supervise and service 4 Parochial Schools, 2 High Schools and 1 Kindergarten; a total of 2680 students.

C. Clinics

A. Baby Clinics—These clinics are held weekly, on Thursday afternoons, at 1:30 p.m. at the Health Department. 50 clinics were held during the year with a total of 799 babies attending (ages 1 week to 1 year).

B. Pre-School Clinics—These clinics are held monthly on the first Tuesday at 1:30 p.m. at the Health Department. 11 clinics were held during 1955 with a total of 419 pre-school children attending (ages 1 year to school age).

5. CHILD HYGIENE—The importance of the work of a group of ladies known as "The BERLIN CHILD HYGIENE ASSOCIATION" can hardly be overestimated from the standpoint of child health in this city. These ladies give of their time and energy to help foster better health for our children. Both baby and pre-school clinics owe their existence to this voluntary organization which provides, in cooperation with the Berlin Health Department, medical supervision at the clinics for children from birth to school age.

It is with pleasure that we include herewith the financial statement of the Berlin Child Hygiene Association for the year ending December 31, 1955.

Clinic Physician's Salary	
(from January 1, 1955 to July 1, 1955).....\$	300.00
Physician's Services	
(Performed at the Hospital).....	23.00
St. Louis Hospital	
(X-Ray, etc.)	16.95

Baby and Pre-School clinic supplies (Baby blankets, Cod Liver Oil, Paper Bags, Vitamins and Other Miscellaneous Items)		43.64
Total Expenditures		\$ 383.59

NOTE: The above expenditures would have had to be paid by the Health Department appropriation had not the association undertaken the task of raising the funds to meet the amount shown. We wish to thank the Berlin Child Hygiene Association for their part in making the Baby and Pre-School Clinics possible.

6. MENTAL HYGIENE—SPEECH THERAPY—Clinics were held March 30, 31, June 1, September 27, 28 and November 21, 22 at the Bartlett School. These clinics are under the direction and supervision of the State Health Department. Attending physicians were: Dr. Anna L. Philbrook, Psychiatrist, and Dr. Ursula Sanders, Pediatrician.

7. CRIPPLED CHILDREN'S SERVICES

A. Orthopedic Treatment Center—Held every 3rd Friday of each month at the Health Department. These clinics are under the direction of Miss Mary Bullock, physiotherapist, State of New Hampshire Health Department, assisted by the staff of the local Health Department.

B. Orthopedic Clinic—Held every three months at the St. Louis Hospital. Said clinics are under the direction of Dr. Ezra Jones, Orthopedic Specialist, State Health Department. Appointments to the clinic are made by the Berlin Health Department.

8. DIABETIC DETECTION DRIVE—During the week beginning November 14, 1955, this department conducted a diabetes detection drive. 72 samples of urine were tested and 9 were found to contain sugar. These people were notified to see their family physicians immediately.

9. HAYFEVER CONTROL—Fire apparatus of the City was used during the month of August to spray ragweed growing along our city streets. Approximately 5,000 gallons of liquid herbicide was used.

- 10. COMMUNICABLE DISEASE CONTROL**—Although many measures may be used for the control of communicable diseases, all of them may be classified under the headings:

1. Preventing spread of the disease.
2. Increasing the resistance of the new host.
3. Minimizing the ill effects of cases that have not been prevented.

Each of these measures is largely complementary to the other two; combination of them constitutes the usual control program and applied to any specific disease. However, prompt reporting is desirable and thus by eliminating the source of infection can the spread be curbed. Other measures of isolation and quarantine, as required by state statute, for infected persons, are followed whenever the need exists, (e. g. exclusion from school and the required issuance of re-admission certificates). Whenever necessary, laboratory methods are used to determine the necessary period of isolation.

- 11. SIGHT CONSERVATION**—Through the efforts and cooperation of all personnel concerned with, and responsible for, the children of Berlin, the State of New Hampshire Sight Conservation Program has continued to service the community. 46 individuals were assisted by this program in 1955.
- 12. DENTAL FLUORINE**—Complete dental fluorine treatments including examination, cleansing and 3 applications of Sodium fluoride were given to 296 children during the latter part of August and the first two weeks of September at a total cost to the City of \$176.40. Mrs. Marjorie Plaisted, Dental Hygienist of the State of New Hampshire Dental Division was in attendance. We are indebted to the State of New Hampshire Dental Division for the fine cooperation received during the year.

II—INSPECTION AND CONTROL SERVICES

1. FOOD INSPECTION

- A. Milk, Cream, Ice Cream, Cheese Products.** Analysis of these dairy products requires constant impartial watchfulness. The bacteria counts of milk distributed in this city have been very good. Important also is the periodic inspection of farms and dairies. This department is indebted to Mr. Arthur Mayo, State Health Inspector for the Northern District, for the splendid cooperation received in all phases of Public Health in Berlin.

- B. **Restaurant Inspection.** The main problem under this heading concerns strict sanitation with particular attention to food served the restaurant patron. The persons partaking of foods dispensed include a large fraction of the total population of this city, and all of them depend on the ability of the dispenser plus whatever inspection service provided by the Health Department.

There are a total of 65 eating and drinking establishments in the City of Berlin. These establishments are inspected regularly.

- C. **Markets.** Businesses handling meat and meat products, fish and poultry must be held to high standards of sanitation. Exposure to flies, dust or other contamination, cleanliness of the premises and personnel, proper refrigeration and the like are required by state statute. There are 65 markets or confectionery stores within the limits of the City of Berlin.

2. **SANITARY ENGINEERING**

- A. **Water Supply.** City and private water supplies were bacteriologically and chemically analyzed periodically to insure clean and safe water for the community.

- B. **Sewage Disposal.** The greater part of the city's sewage is disposed of by means of sanitary sewer system, maintained by the Public Works Department. Several sewage outlets are still wide open and therefore offer excellent sources of infection with communicable diseases.

- C. **Rodent Control.** The department has available, for sale, various types of insecticides for the effective control of rodents.

3. **ABATEMENT OF NUISANCES.** Nuisances as such constitute a miscellaneous group of conditions usually called "complaints received." Insects, odors from garbage, sewage, animal pens, pollution of streams or shores, refuse collection, industrial complaints, objectionable vapors and gasses and excessive noise include the most frequent nuisances. The department received 37 such complaints, as listed above.

III—ADMINISTRATIVE FUNCTIONS

1. **STATISTICS.** The recording of births, deaths, and other vital statistics is of great importance in the field of Public Health.

Systems of handling and recording must be complete, comprehensive and accurate.

A. Births	Male	Female	Total
Live Births	312	269	581
Stillbirths	8	3	11
	<hr/>	<hr/>	<hr/>

Report of Recreation Parks and Playgrounds

January 31, 1956

To His Honor, the Mayor, and members of the City Council:

We herewith submit the eighth annual report of the Recreation, Parks and Playgrounds Department of the City of Berlin.

At the termination of another year's activities in the department it is a privilege to enumerate them. These activities have involved all age groups, many forms of recreation, and it is felt that through these activities much pleasure and benefit have been afforded Berlin's citizens, young and old.

Playgrounds

The accomplishment of the department's summer playground program was very commendable.

With the addition of a supervised playground on "Ramsey Hill," all sections of Berlin had a playground available.

The playgrounds were well attended each day and the attendance has grown considerably in the last few years.

A marked increase in interest was shown in the arts and crafts program, and the participating youngsters made a large variety of useful and colorful articles.

The children had an opportunity to learn many skills and develop good sportsmanship by the many contests the department conducted.

The wonderful success of the playgrounds was due to the very capable supervisors. They assisted in the annual "Kiddies Day Parade" sponsored by the Junior Chamber of Commerce, and in other projects.

Swimming

The very clement weather we enjoyed last summer resulted in excellent attendance at Moose Brook. There were approximately one thousand two hundred and sixty-one boys and girls taking

advantage of the daily trip to Moose Brook, where they obtained instruction by a qualified Red Cross Instructor and Life Saver. In addition to swimming, the children were taken on field trips and encouraged to take part in the activities offered by the attending supervisors.

Skating

Berlin can be very proud of its seven ice skating rinks. They are maintained in the best way possible to facilitate good conditions for the pursuit of many people's favorite pastime. A daily check is made of all rinks to see if flooding or scraping is necessary.

Softball

During the past summer, the interest in softball reached a new high in Berlin. Six (6) teams were organized with about one hundred and twenty men participating.

The "Recreation Department" team won the league play. In the tournament playoffs, "Brown Company" came out on top with "Western Auto" being the runner-up. Again last season, Berlin was represented in the state tournament played at North Conway. We couldn't go all the way and were defeated in the semi-finals.

As a culminating activity, a banquet was held at the "Chalet." At this occasion, the trophies, purchased by the Recreation Department were presented.

The installation of lights at the Community Field has made this softball field one of the best lighted fields in New England. These lights have enabled night time playing, and, consequently, more games could be played.

All the games were well attended by loyal supporters eagerly cheering their favorite team on to victory.

An added incentive for frequenting Community Field was the establishment of a concession housed in a new building there. This building also houses the equipment needed for the sports played there.

With all the facilities available in Berlin, and the excellent conditions available for playing softball, it is hoped that the state tournament can be held here in the near future.

Girls' Softball

A new venture in the form of girls' softball was begun last summer. The girls were organized into four teams, and they showed a genuine interest in softball. As is true in introducing any new phase, there has to be a beginning, and that was just about what girls' softball was last summer, a beginning. The Department has plans for developing girls' softball to the extent that Berlin can be represented in state play-offs.

Tennis

Tennis proved to be very popular in Berlin during the past season. The courts were in constant use. For the first time, the Recreation Department was in charge of the first Junior Chamber of Commerce tennis tournament. The winners played at Dartmouth College for the state tournament. Expenses for making this trip to Dartmouth College was handled by the local Junior Chamber of Commerce.

The annual Recreation Department's tournament was held with trophies being presented to the singles winners, runner-ups and also the doubles winners and runner-ups. More interest was shown in this tournament than previously, and this is a good indication of things to come.

Sliding

A new innovation was introduced in Berlin this winter with the popularization of the "flying saucers." The Department built a slide for the use of these "flying saucers" through the cooperation of Brown Company, who allowed their land to be used. The department did not originate the idea of the sliding chute, but thought the idea good enough to use it. As in previous years, seven sliding areas have been set up to enable the youngsters to coast in safety.

Skiing

Development of the "Mt. Jasper" skiing area has not grown as the Department would have liked it to. There was some work done there to clear the trails, but there was so much vandalism in the past that not enough money could be appropriated to make the area what it potentially can be. Plans are formed for making "Mt. Jasper" a place with good skiing conditions which will be available for Berlin's citizens.

The annual Grammar School Hockey League proved to be a very exciting league for the participants and observers. There were six (6) teams representing grammar schools of Berlin in the league and each team played a total of ten (10) games. Most of the games were played on the community field rink, but through the interest of many of the parents of the boys in the league, one game was played at the Notre Dame Arena. The attendance was very good for this contest, and the boys showed great enthusiasm in being able to play in the Arena. The annual "Champs" vs. "All-Stars" game was also played in the Arena, and the boys certainly displayed their talents on the ice. At this game awards were made to the "Champs" and also the "All-Stars." The Eagles Club presented a trophy to the St. Joseph's team as they were the 1955 champions of the Grammar School Hockey League.

The St. Joseph's team, for winning the championship, received a well deserved privilege by being able to see one of the "Bruins" games in Boston, and also to see the various sights of Boston. This trip was made possible by various clubs of the city who helped defray the expenses by their worthwhile contribution.

Senior Hockey League

Senior hockey received a start last year by the Department's organization of a four (4) team league.

This league gave the teams a total of nine (9) games to play, and the interest was such, that it is hoped to bring back to Berlin the once interesting City Hockey League.

The playing site was split in that some games were played at the Community Field Rink, and some at the Notre Dame Arena.

After league play, a tournament was held at the Notre Dame Arena, and after seeing some very outstanding hockey by all teams, the "Rangers" came out as the "Champs", and they received a trophy for their accomplishment.

Baseball

Again, the Department was instrumental in the organization and functioning of the Berlin "Little League." Things that the Department does to keep the "Little League" on the move are purchasing of all equipment, except uniforms, maintains the playing fields, and works hand in hand with the Board of Directors.

To better playing conditions for the three (3) high school baseball teams, the Department maintenance crew keeps Memorial Field and Community Field in the best playing condition.

The Pony League All-Stars got a boost this year by accepting to play the Park Extension All-Stars in Montreal. Montreal boosters went all out to show the Berlin boys a fine time, and gave them a banquet at the "Chalet" in Montreal. Other expenses that the Pony League had to meet, were met by a war bond raffle, and the selling of scrap paper to Brown Company. This competition has proved to be quite an international relationship, and plans are to repeat it each year on a home and home basis.

The Department is responsible for organizing, supervising, and maintaining the following leagues and series in the field of baseball:

Berlin Pony League.

Little League Farm Club.

Little League Farm Club Playoffs.

Pony League All-Stars vs. Park Extension All Stars of Montreal.

Pony League Playoffs.

Emblems and medals to Pony League "Champs", Runner-ups.

Music

In another phase of the recreation program, which benefits both young and old, is that the department, in a financial way, sponsors the weekly band concerts played by the very able Brown Company Band. Financial assistance was also given to the Berlin Civic Chorus and Orchestra so that the public of Berlin could witness the various concerts given by this very talented group.

Basketball

Basketball is one of the Department's most popular enterprises.

The basketball program expanded by leaps and bounds. Instead of the four (4) team league which participated during the last season play, there were six (6) teams with sponsors. As a result of this, more playing space was necessary, and the league was moved from the Community Club gym to the more spacious high school gym. A fifteen game schedule was played which was followed by a tournament. The interest in this tournament, won by "Camp Dodge," was especially high. The interest and appeal were intense enough to have the game of the tournament broadcast

over WMOU. A banquet which was greatly enjoyed by all those who attended, was held. At this event, a trophy was awarded to Captain Meshy in behalf of "Camp Dodge," the tournament champions.

Improving and Maintaining Recreation Areas

The Department feels honored to have a maintenance crew that can maintain all the areas of promotion so well. Also it is a great asset to have a maintenance crew that is so dependable and interested in the promotion of recreation.

The accomplishments of the Department were many during the past year, such as :

- Seeded all playing fields.
- Painted all playground equipment.
- Planted evergreen in Community Field.
- Cut grass on all ball fields and parks.
- Painted one-third of the bleachers.
- Hauled clay to all infields.
- Built retaining wall at Community Field.
- Installed new fence on retaining wall (Fence purchased by Brown Company).
- Installed drinking fountain at Community Field.
- Helped in building three (3) shuffleboard courts.
- Helped in installation of lights at Community Field.
- Built green building for Community Field.
- Built permanent benches for both Little League Field and Community Field.
- Received 200 loads of bark to enlarge Community Field and scattered same.
- Worked with the City Electrician in the installation of Christmas Decorations.
- Built the nativity scene for the Chamber of Commerce.
- Installed band stand for different occasions.
- Furnished and installed the P. A. System for various clubs and celebrations.
- Built scoreboard for Community Field.

Much success of the Department is due to the cooperation and contributions of various individuals and organizations.

We would like to thank Mr. Niles, Mr. Dwyer, and the School Board for use of their facilities; Father Bousquet and Father Provost for the use of the Notre Dame Arena; Staff at WMOU

for announcing our activities and results; Staff at the Berlin Reporter for publishing our activities and results; Lions Club, Elks Club, Eagles Club, American Legion, Local No. 75, Local No. 1444, Kiwanis, Rotary Club, Knights of Columbus, Junior Chamber of Commerce, Berlin Chamber of Commerce, Moose Club, V.F.W., Labnon's Men Shop, Curtis Hardware, Paul's Laundry, Western Auto, Camp Dodge, Lavigne's Red Wing, Eastmans, Freezertreet, New England Tel. and Tel., F. W. Woolworth Company, Costello Hotel, Brown Company, Public Service for installing poles at Community Field, City Electrician and his helper, Jack Story for his worthwhile information about numerous things, Berlin Community Club, Management of "Chalet", and to all volunteers who helped in any way to further the promotion of recreation. Many thanks also to the Directors of the Civic Chorus, Civic Orchestra and the Brown Company Band.

To any person or organization whose help we may have neglected to mention, it has not been intentional.

We appreciate the cooperation that has been shown us by the Mayor, City Council and department heads toward our cause.

Respectfully submitted,

JIM BARNETT, Recreation Director

EDWARD OLESON, Chairman

RICHARD ROBERGE,

MRS. EDGAR THIBODEAU,

Board of Park Commissioners

Report of City Clerk

January 31, 1956

To the Honorable Mayor and City Council
Berlin, New Hampshire

Gentlemen:

I submit herewith my report as City Clerk for the year ending January 31, 1956.

I have collected for the City of Berlin and credited to the appropriate departments, the following sums:

Automobile taxes	\$ 71,259.99
City Hall Rest Rooms	103.35
Dog Taxes	960.30
City Hall	146.00
Public Works Department	14,200.18
Fire Department	3,955.88
Miscellaneous	110.00
Municipal Halls	197.00
City Clerk's Department	523.00
Tax Deeds	201.00
Airport	265.00
	<hr/>
	\$ 91,921.70
Paid City Treasurer	\$ 91,921.70

VITAL STATISTICS

The following tabulation shows the listing of births, deaths and marriages as recorded during the past five years:

	1951	1952	1953	1954	1955
Marriages	185	162	144	161	135
Births	498	516	517	524	592
Deaths	186	165	186	196	180

Respectfully submitted,

JAMES E. CRYANS,
City Clerk

Report of Fire Department

PUBLIC SAFETY

I herewith submit the annual report of the Berlin Fire Department for the year ending January 31, 1956.

During the year the Department answered 421 calls; 148 calls for fires to buildings and contents; 32 grass or brush fires; 44 dump or rubbish fires; 26 automobile or truck fires; 7 fires to mills or shops; 24 false alarms; 99 ambulance calls and 41 miscellaneous calls such as spraying rag-weed solution, locked doors, removing ice from roofs, etc.

The Department travelled 1,412.3 miles and worked 217 hours and 11 minutes on the above calls and used the following equipment and material: 10,450 feet of 2½-inch hose; 2,000 feet of 1½-inch hose; 18,385 feet of ¾-inch hose (booster pump line) 25,960 gallons of water from booster tanks; 1,498 feet of ladders; 84 pounds of fire extinguisher chemical (CO'2). The smoke ejector was used 7 times; chimney weight to unplug chimneys was used 4 times; indian pumps used 7 times and the lighting unit was used 5 times.

At this time I wish to recommend that the old and obsolete equipment be replaced. We are in need of a new fire truck as the old trucks that are still in use can no longer be depended on under the present traffic conditions, as our City is developing fast in the out-skirts and the population is on the increase again. Our fire alarm system is under constant repairs and a new air plant equipped with horn is needed to replace the present steam whistle which is beyond repairs as parts are not obtainable.

We have been fortunate to have lost no lives in fires as other cities and the fire loss is still low.

I extend my sincere thanks to the Mayor and members of the Council, the Police Department and other departments of the city government and the residents of the City of Berlin for their cooperation during the year.

Respectfully submitted,

O. B. BERGQUIST,

Chief Engineer

O. B. BERGQUIST,
Chief

Board of Education

To His Honor, the Mayor, and Members of the City Council:

Herewith we submit a brief report of the Department of Education for the fiscal year ending January 31, 1956. A more detailed report is prepared at the close of the school year and additional information may be obtained at any time at the office of the Superintendent of Schools.

Total expenditures for the fiscal year ending January 31, 1956 were \$391,930.56, an increase of \$18,505.16 over last year's expenditures. Of the total credits, \$356,000.00 came from local tax appropriation, and \$35,938.79 from state and federal reimbursements, tuitions, cafeteria receipts, and from other sources as shown in the financial statement, a part of this report. The increase in expenditures was due principally to increases in salaries to teachers, janitors, and other employees as authorized by the Mayor and City Council, to the purchase of a school bus and a driver training car, to repairs to the N. Y. A. building for use as a garage for school buses, and to special repairs.

Purchase of one 48-passenger bus and rental of four 60-passenger busses has made possible a more flexible program of safe and comfortable transportation of school children. At the present time 658 children are carried on school busses, which travel some 170 miles daily. Kindergarten children of the Berlin Mills and East Side sections of the city, where kindergartens are not available, are now transported to the Marston Kindergarten. School busses are also being used for out-of-town trips of athletic teams, bands, and other school groups of both public and parochial schools. Use of busses for other than school groups is prohibited. The old N. Y. A. building, adjacent to Memorial Field, has been renovated to make an excellent garage for the busses.

Purchase of a new driver training car will make possible continuance of adult training and will avoid the delay in starting the program each year until the new models are available. It will also be possible with our own car to offer instruction during the summer months. More than a thousand persons—pupils and adults—

have completed this training which authorities claim has proved its value in preventing highway accidents.

Proper maintenance of plant and equipment is of real concern to your Board. Although much has been accomplished in the last few years, much still remains to be done. Many of the major repairs have to be planned in advance and work done during the summer months when schools are not in session. With final approval of budget generally delayed until mid-summer or later, it often becomes impossible to get such work undertaken, much less completed, before the opening of school in September. Many needed repairs must therefore be postponed to a later summer vacation. For good planning and a more efficient use of funds, it is essential that budget approval be given by June 1st or before.

Enrollments in the Berlin Public Schools have increased again this year, especially in the lower grades and in the Brown School district. With further increases expected next year, it will probably become necessary to separate the present double grades, and provide again for single grades throughout the city. One of the factors of the increased enrollment at Berlin High School is the enrollment of forty-four veterans.

It cannot be repeated too often that good teachers are essential to good schools. It must be apparent to all that it is becoming increasingly difficult to secure new teachers or to retain the old ones who are adequately qualified as to training and personal characteristics. There just are not enough good teachers to go around, and the competition to secure the better teachers to meet the demands of increasing enrollments, together with the competition from other fields, is creating a real emergency in education. In many cases the problem is not in selecting a teacher but of finding one. Berlin is indeed fortunate that so far it has been able to secure and retain an excellent teaching staff.

It is encouraging to note the rising interest of citizens generally in the great problems of Education. This is evidenced by the White House Conference on Education and by the more active support by Parent-Teacher groups, and the many parents and friends, who have been very generous in their support of our school programs. Active interest and thoughtful discussion of school programs will do much to bring about the type of education and the kind of schools essential to a free and democratic government.

May we extend, again, our sincere appreciation to the Mayor, the members of the City Council, and to the many others who have contributed most generously to our efforts to provide the best in education for your children.

Respectfully submitted,

LOUIS E. RANCOURT, Chairman
 ROBERT O. MURPHY, Secretary
 MARJORIE R. GILBERT,
 Board of Education
 CALEB H. NILES,
 Superintendent of Schools

City of Berlin, New Hampshire
Gentlemen :

We are pleased to present herewith the thirty-first annual report of the Water Department.

This year has seen the largest building program since the City purchased the plant in 1925. Ninety-three new houses were connected to the system with another dozen or so under construction. Approximately one mile of pipelines were laid for these additions.

Many new building areas were opened up and a great many new long term building projects started. The Highland Park area now has some twenty new homes. The Bilodeau development in Liberty Park has a like amount. Other new developments are: The Ridgeview, the Haskell area, the Pepin layout, the Noury expansion and many more new homes in the Halvorson development.

The laying of an 8-inch line beginning at the Riverside caisson ground water pumping station on Riverside Drive, for the purpose of increasing the pumping output into the City, was started this year. We purchased 3600 feet of cement lined cast iron pipe, and 1100 of it was laid. The total distance required for completion of the project to the Motor Mart will be 6600 feet, and we plan to complete it in 1956.

For several years the need to prepare for emergencies has been widely publicized. Our gravity water supply, as we all know, is vulnerable to warfare, an easy target for biological diseases, and an open target for the atom bomb. Enemy interest in the deliberate contamination of drinking water supplies would be related to the ability to produce disease, and spread it throughout the population. The dropping of disease borne or atomic bombs from the air may well cripple our gravity source of supply.

The necessity for emergencies was well demonstrated by the destructive hurricanes "Carol" and "Edna" which struck this area in 1954. Many plants were left with crippled water systems, loss of power for pumping, empty water mains and silted reservoirs.

With the exception of several road washouts, our water supply was left intact. Electric power, however, was cut off temporarily, both for pumping and chlorination.

We are fortunate to have, as an auxiliary source of water supply, the Riverside pumping station. This type of water supply is practically immune to pollution from aerial bombings, and it is our hope this year to install an auxiliary source of either diesel or gasoline power for this station.

More trouble was experienced on our Ammonoosuc pipeline this year. On June 10th lightning struck a beech tree seventy-five feet north of the pipe line and one mile westerly from Jericho Brook crossing. The bolt of lightning completely shattered the tree and followed the roots into the ground. From this point it

left an open trench directly to the steel bands around the wooden pipeline. The charge then followed both east and west along the the pipeline for a distance of 2000 feet in each direction. The current followed along the steel bands and jumped across each joint. Many of these joints were completely uncovered from the force of the charge as the current became grounded when jumping from one joint to another. Damage amounted to some 200 holes in the pipeline costing us \$4,000.00 and much inconvenience to our customers. During repair work, the pipeline was completely shut off for about two weeks, and intermittently, for about three months.

For further details of the year's activities we refer you to our Superintendent's report, and for financial standing to the auditor's report.

Respectfully submitted,
AIME TONDREAU,
Mayor, Member Ex-Officio

FRANCIS L. BRANNEN,
Chairman

EDWARD MURPHY, Clerk

RICHARD CHRISTIANSEN,
Commissioner

ROLAND J. BRIDEAU,
Commissioner

January 23, 1956

Board of Water Commissioners
City of Berlin, New Hampshire
Gentlemen:

The year 1955 was a year of unusual activity in the Water Works. More than one hundred new homes were built. Thirty-six old services were relaid with new pipes to the property line. More than one mile of new water mains were laid, and due to a bolt of lightning, repairs had to be made on one mile of 20-inch transmission pipeline near Godfrey dam, ten miles from the city proper.

Rainfall during the year was 4.37 inches below normal—a total of 33.84 inches. The shortage came in the late fall so that ample water was available during the summer months when it was needed.

Our meters recorded more water consumption this year than any other year. The total amount was 1,054,305,000 gallons; 7,000,000 gallons more than the peak year of 1947 when consumption was 1,046,000,000 gallons.

The Riverside auxiliary ground water supply was a life saver this year; 20,000,000 gallons was pumped from this source. Electric power for pumping amounted to \$41.71 per million gallons pumped.

Beaver

Beaver have been real pests in our water supply. Debris from beaver activities are continually clogging our intake screens and valves. When their dams are dynamited and torn out, a great accumulation of strongly odorous black muck is released. Beaver create small impoundments of shallow flow. There is a rise in water temperature, along with growth of small animals and other forms of life leading to odor production in the water.

All our gravity supplies are infested with these animals. In the past we have depended to a large extent on licensed trappers to eliminate them during the trapping season, after which we remove the dams and debris. Due to the large amount of competition among trappers, the number of beaver removed from our water sheds has not been very successful. Last year with permission of the Fish and Game Department we took it upon ourselves to trap the Bean and Horn Brook areas. Twenty beaver were taken from these areas in 1955. A summer inspection showed little if any active beaver colonies remaining.

Financial

Gross income for the year was \$137,480.00. Abatements for municipal uses in public buildings, schools, churches, institutions, fire hydrants, etc., amounted to \$13,653.00. Actual paying accounts, therefore, amounted to \$123,827.00 of which only \$117.12 remained outstanding on January 1st, 1956.

Balance in the bank was \$7,818.84, January 1st, 1956. We paid \$30,000.00 on principal and \$7,012.50 in interest during the year. This leaves five more payments on bonds of \$30,000 each. The last

payment on these bonds will be in 1960. With the reduction in interest payments and increase in building expansion, we expect an operating income of \$128,000 next year.

Recommendations

Since the plant was bought in 1925 from the Berlin Water Company, several building booms occurred similar to this year when mains had to be extended and construction costs were more than our finances would permit from income. To cope with expansion in the past, two additional bond issues were floated—one for \$25,000 in 1931 and another for \$35,000 in 1940. These have been paid off in addition to another \$550,000 in plant bonds.

Further on in this report you will note that our proposed budget for 1956 shows a balance at the end of the year of \$1,234.46. I regret to say that the enormous building progress for 1954-1955 far exceeded our budget and it became necessary for us to abandon much maintenance work necessary for the efficient upkeep of our plant. The expansion outlook for 1956 is even greater. I suggest that steps be taken at once to float sufficient short term bonds to bring our plant up to date.

In conclusion I wish to thank the Board of Water Commissioners for their cooperation and to acknowledge my debt to the whole-hearted and efficient employees of the department.

Respectfully submitted,

ERNEST E. TANKARD,

Superintendent

SUMMARY OF STATISTICS

For the Year Ending December 31, 1955

BERLIN WATER WORKS

Coos County, N. H.

General Statistics

Population as of January 1955—18,000.

Date of construction—Main construction, 1892.

Sources of supply—Bean and Horn brooks, Ammonoosuc river, ground water caisson well.

Mode of supply—Gravity and auxiliary pumping.

Statistics Relating to Distribution System

1. Kind of pipe—Cast iron, wrought iron, copper, cement lined and wooden stave.
2. Sizes—Two to sixteen-inch.
3. Extended during year—5,990 feet.
4. Total now in use—50 miles.
5. Length of pipe less than 4 inches in diameter—16 miles.
6. Number of hydrants set during year—One.
7. Number of hydrants changed during year—One.
8. Number of public hydrants—200.
9. Number of private hydrants—97.
10. Number of stop gates added during year—Ten.
11. Number of stop gates smaller than 4-inch—249.
12. Number of stop gates in use—524.
13. Range of pressure in mains—30 to 150 pounds.

Statistics Relating to Services, Meters, Etc.

1. Kind of pipe—Cast iron, wrought iron, brass, copper and cement lined.
2. Sizes— $\frac{3}{4}$ -inch to 6-inch.
3. New services added during year—93.
4. Total number of services now in use—3,508.

Meters

1. Number of meters added for the year—None.
2. Number of meters now in use—603.
3. Number of meters changed during year—51.
4. Number of meters tested—71.
5. Percentage of services on meter—15%.

Booster Pumps

1. Location—Corner Spring and Guilmette Streets.
Manufactured by DeLaval Steam Turbine Company.
Description—Two single stage centrifugal pumps in series. Pumps from distribution system into a 40,000-gallon emergency storage tank on Hillside Avenue. (Pump to be used in an emergency.)
2. Location—Near junction of Kent Street and Forbush Avenue.
Manufactured by DeLaval Steam Turbine Company.
Description—Single stage centrifugal. Direct connected to the distribution mains. Pumps into a 20,000-gallon storage tank on Forbush Avenue.
3. Location—Hillside Avenue Extension.
Lunt Moss unit.
Description—Single stage 5-H. P. 30-g.p.m. Pumps into a 450-gallon storage tank.
4. Location—Corner Petrograd Street and Sixth Avenue.
Lunt Moss unit.
Description—Single stage 5-H. P. 30-g.p.m. Pumps into two 315-gallon storage tanks.
5. Location—Upper Hillsboro Street.
Lunt Moss unit.
Description—Single stage 7.5-H. P. 50-g.p.m. Pumps into two 475-gallon storage tanks.

Purification Equipment

1. Chloro-feeder unit, venturi controlled, in service on Ammonoosuc line.
2. Chloro-feeder unit, meter controlled in service on Hornbrook supply line.

3. Chloro-feeder unit, venturi controlled, in service on Bean brook supply line.
4. Chloro-feeder unit, meter controlled, in service at the River-side pump.

BERLIN WATER WORKS
SCHEDULE OF WATER RATES

Effective July 1st, 1954

Flat Rates

For first family, per year.....	\$11.00
For second family, per year.....	9.00
For third family, per year.....	8.00
For fourth family, per year.....	7.00
Bath tubs, each	2.50
Water closets, each.....	5.00
Wash basins, each.....	2.50
Maximum rate covering private dwelling house occupied by one family	25.00
Offices and stores, faucet.....	10.00
Stable	3.00
Each additional animal.....	1.00
Hose, to be used not more than two hours per day, May 1st to October 1st.....	4.00

Fountains

To be used not more than six hours per day from
May 1st to October 1st:

For 1/16-inch jet or less.....	\$ 4.00
For 1/8-inch jet	10.00

All fountains having an orifice or discharge greater than 1/8-inch in diameter, will be supplied water by meter.

Meter Rates

Service charge	\$1.00 per quarter
First 1,500 feet	\$.30
Next 3,500 feet22

Respectfully submitted,

E. ARTHUR VALLIERES,

Clerk of Municipal Court

Report of Public Works

To His Honor the Mayor and City Council
Berlin, New Hampshire

Gentlemen :

I hereby submit the annual report of the Public Works Department for the fiscal year ending January 31, 1956.

Before going into my report I wish to thank the Mayor and Council, the various department heads, the New Hampshire State Highway personnel and the employees of the Public Works Department, for their cooperation during the past year, making possible a great amount of work being done all over the city as will be shown in the following report.

Street Construction

The following streets were constructed or reconstructed during the year.

Hutchins Street near Bean Brook to Sully Street.....	750 feet
Rhiems Street	200 feet
Bemis Street	450 feet
Verdun Street	480 feet
Maynesboro Street	400 feet
Hutchins Street near Bridge Street	500 feet
Hutchins Street near log pile	150 feet
Twelfth Street	1,200 feet
Williamson Avenue	1,400 feet
Nansen Street	700 feet
Pine Island Street.....	600 feet
Norway Street Extension.....	300 feet
Jordan Street	200 feet
Wescott Street	200 feet
Jasper Street	100 feet
Prospect Street	400 feet
Portland Street	400 feet
Winter Street (partially done).....	500 feet
Second Avenue (partially done).....	1,000 feet

Horne Street	100 feet
Harding Street (Extension).....	100 feet
Trudel Street (Extension).....	200 feet
Hillsboro Street	200 feet
Hillside Avenue and Second Avenue, new two inch hot top and regrading	550 feet
Widening of upper Main Street from Eleventh Street to compact line (partially done)	
Jolbert Street	200 feet

Street Resurfacing

During the summer months a great deal of street resurfacing was done around the city. 94,050 gallons of M C 3 was used and a hone was hired from the State Highway Department to hone our streets as the asphalt and sand was applied taking out many of the small bumps and holes.

The following are the streets that were treated:

Twitchell Lane	500 feet	Lancaster Street	1,000 feet
McGee Street	400 feet	Gendron Street	400 feet
Pine Island Street ..	600 feet	Howland Street	400 feet
Daley Street	200 feet	Portland Street	400 feet
Nansen Street	800 feet	Church Street	All
Williamson Avenue	1,200 feet	High Street	800 feet
Twelfth Street	1,200 feet	Park Street	200 feet
Eleventh Street	250 feet	State Street	400 feet
Sweden Street	All	Jasper Street	All
Eighth Street	All	Third Avenue	All
Denmark Street	1,000 feet	Hinchey Street	600 feet
Maple Street	All	Wight Street	800 feet
Bridge Street	All	Shepard Street	800 feet
Verdun Street	600 feet	Mannering Street	350 feet
Bermico Street	200 feet	Madigan Street	350 feet
Champlain Street	All	Gindlin Street	400 feet
Mason Street E. S. ..	All	Cedar Street	500 feet
Granite Street	All	Summer Street	600 feet
Hillsboro Street	All	Susan Street	100 feet
Coos Street	1,200 feet	Hillside Avenue	800 feet
Grafton Street	1,000 feet	Washington Street ...	600 feet
Kent Street	1,500 feet	Jolbert Street	200 feet
Derrah Street	1,000 feet	Cascades Street	500 feet
Wescott Street	All	Enman Hill Rd. (TRA)	½ mile

Widening of Streets

Many of our streets have been widened this year to relieve some of our traffic problems and to facilitate snow removal. I hope that more of them will be taken care of in the near future.

Street Patching

A total of 1,551 tons of cold patch was used to maintain our streets this year. This was applied to our streets at a cost of \$31,107.61.

Sewer Construction

Due to the great amount of new home construction during the past year a very heavy sewer construction program was carried out, the department laying 9,460 feet of new sewer lines throughout our city.

Storm Drains

Several new catch basins were installed where needed and many more should be installed in the future. Also storm drains are needed in several places in the city.

The usual preventive maintenance schedule was carried out all over the city.

Bridges

The painting and sand blasting of the Berlin Mills Bridge was completed this year and new railings should be installed in the near future.

A reinforced abutment was constructed on the west side of Cascade Bridge, the cost of this being half by the town of Gorham and half by the city of Berlin.

Cemeteries

The usual cemetery maintenance work was carried out this summer with at least one man assigned to the cemetery at all times.

Traffic Signs

Traffic signs and traffic lines were maintained and painted as needed all over the city.

Airport

The airport received a great deal of attention this year with the rehabilitation of the runway ends and shoulders and the clearing of approaches. This was done by the Northern Paving Company of Gorham under the supervision of the Public Works Department, the engineering being done by the city personnel.

The cost of this project was divided 50% Federal, 25% State and 25% City Funds. Total cost of the project, \$24,957.10.

Equipment

New equipment was purchased this year to facilitate painting of our bridges, this included sand blasting and painting equipment.

A new John Deere Tractor with angle blade was also purchased and found very useful and much needed.

City Garage

Our regular crew of two mechanics, one body repair man, one welder, one blacksmith and one carpenter were kept very busy this year maintaining our equipment and buildings.

Pipe Plant

Has not been operated as much this year as in the past because of manpower needed on outside jobs in order to keep up with our much needed street repairs and sewer construction.

Snow Removal

Snow fall during the Spring months of February and March was quite heavy, but Fall Snows, so far, have been light and icing conditions on our streets have been kept to a minimum by the usual use of salt and sand.

Glen Avenue

The proposed straightening of Glen Avenue, surveying and designing is about complete so that if State and Federal Funds are available to match city funds, our Glen Avenue road will get a face lifting before too long. All the engineering on this project has been done by the Public Works Department, for which an outside engineer was hired part time, due to the fact that the State Engineering Department has been so busy they could not handle it themselves, and our own department has also been very busy.

Clean-up Week

Clean-up week was held on the week ending May 6th. Over 600 loads of trash was carried to the dump during this period and the weeks following. This was done while still carrying on our regular garbage collection.

Sidewalks

3,800 feet of sidewalk was constructed during the year and was divided as near as possible between the four wards in the city.

Surface Drains

Clark Street and Kent Street Surface Drains were started late in the year and has practically slowed to a standstill because of freezing weather and snow removal. This work will be continued as time permits.

Housing Development

Many housing developments, numbering at least ten, have had a good year. The last count I got was 114 new homes. These developments have been an awful drain on the department manpower and finances and according to the statisticians we should look for a bigger year in 1956.

FINANCIAL REPORT

Appropriation \$308,409.33

Summary of Expenses

1. Airport	\$ 4.24
3. Blacksmith Shop	293.83
5. Cemetery	3,421.73
6. Garage	70,082.00
8. Incinerating	1,685.47
9. Garbage Collection	49,802.09
12. Miscellaneous or General	3,622.71
13. Office	13,052.20
14. Public Buildings	3,199.71
16. Snow and Ice Removal	61,739.00
17. Traffic Control	2,162.96
19. Street Maintenance	134,885.23
20. Sewer Maintenance	81,167.60
22. Construction and Maintenance Overhead	23,991.89
23. Engineering	3,259.18
24. Storehouse PWD	3,982.32
26. New Equipment	3,946.79
27. Concrete Pipe Plant	1,246.07
Miscellaneous and Preventive Maint.	34,115.00
Total	\$495,660.02

Credit for rental on equipment charged to various jobs.....	127,062.80
Total Expenditures	<u>\$368,597.22</u>
Other Credits	47,900.95
Amount Spent, Less Credits	<u>\$320,696.27</u>
Budget Allowance	\$308,409.33
Overdraft	<u>\$ 12,286.94</u>

In closing, I wish to thank the people of Berlin for their cooperation during the past year. This goes a long way in my being able to carry out the job and make the task a more pleasant one.

Respectfully submitted,

C. J. BRUNGOT,
Commissioner of Public Works

Report of Assessors

To His Honor, the Mayor, and Members of the City Council:
Gentlemen:

We wish to express our appreciation for the courtesies and assistance given us during the year by His Honor, the Mayor, City Council and other members of the City Government.

Respectfully submitted,

GEORGE A. BELL, Chairman

OTIS J. BARTLETT,

FRED G. HAYES, JR.,

Board of Assessors

Report of Library Trustees

To His Honor, the Mayor, and City Council of the City of Berlin, New Hampshire.

Gentlemen:

The Board of Trustees of the Berlin Public Library herewith submits its annual report, together with the Treasurer's statement and the Librarian's report.

During 1955, the library purchased 848 new books, and circulated 44,963 volumes.

Again this year we subscribed to 92 magazines and newspapers, and it is a pleasure to see the interest and appreciation, the readers show these periodicals. For the year 3,998 magazines circulated.

A new set of Compton's Encyclopedia was purchased for the Children's Department. This set is proving very useful to the children who come to this department for reference work. Also a set of Groves Dictionary of Music and Musicians was purchased for Adult Department, to replace a worn and outdated set.

A Neighborhood Meeting was held in Berlin, on October 11th, with fifteen Librarians from the North Country, and with Miss Catharine Pratt, Assistant State Librarian, and Mr. Ralph Riley, State Extension Librarian, present. Mr. E. C. Manton, Chairman, opened the meeting with greetings. This was followed by a roll-call, at which time everyone gave brief comments on recent books. The afternoon period was devoted to library aids, and the entire meeting proved to be successful and profitable. The meeting closed with a tea served by the Library Staff.

In November, Miss Laffin held a very successful Book Week. The slogan this year was "Read More Books", and new and colorful books were placed on tables for the children to look at and admire. Also displays with dolls, representing children reading at leisure. Book Week colors were carried out with posters and fliers, featuring Book Week slogans.

The annual visits to this department by the teachers and pupils have proven very encouraging. These visits, usually held in the morning, give the children a chance to look over, handle and choose the book of his or her choice. Over 100 new registrations were taken, and on Saturday all books were released for circulation.

We would like to call attention to the attractive appearance of our Children's Department, which was painted a light blue with darker blue for contrast, and ceiling yellow. This work was done by Rene Bergeron Paint Company, and has added much to the beauty of this department. At the same time our Magazine Room was completely renovated, and with our new fluorescent lights, it is now a delight for the staff to work in this room.

The staff of the Adult Department features many interesting and attractive displays every month of the year, and during the holiday seasons. These displays are highlighted by attractive posters and driftwood arrangements, calling attention to the books displayed.

To Marion K. Steady and Inez N. Hamlin, our faithful substitutes, the Trustees wish to extend their thanks.

In closing, the Trustees wish to thank the entire staff for their courteous, interested and faithful service.

Respectfully submitted,

E. CECIL MANTON,
Chairman
FLORENCE HICKEY,
Treasurer
A. E. VALLIERE,
Secretary
Library Trustees

Report of Auditor

WATER WORKS

February 11, 1956

To the Board of Water Commissioners
City of Berlin, New Hampshire

Gentlemen :

I have examined the balance sheet of the Berlin Water Works as at December 31, 1955, and the related statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances, except as follows :

In conformity with prior practice, the earnings for the year include only charges accumulated at the regular billing dates, and unbilled revenue at December 31, 1955 has not been accrued. Also, a check of the 1956 invoice files indicated approximately \$2,718.08 of 1955 invoices which have not been included in accounts payable in this report. As in prior years, the value of insurance premiums unexpired at December 31, 1955 are not included in the balance sheet.

My examination did not include a detailed check of meter readings and service records supporting the billings to customers. I was not present at the taking of the physical inventories of materials and supplies, but I verified the mathematical accuracy of the inventory submitted to me.

In my opinion, subject to the foregoing exceptions, the accompanying balance sheet and statement of income present fairly the financial condition of the Berlin Water Works as at December 31, 1955, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

LEO J. CAMPAGNA,
City Auditor

Respectfully submitted,

LOUIS DELORGE, JR.,

City Treasurer

Auditor's Report

February 28, 1956

To the Honorable Mayor and City Council
Berlin, New Hampshire
Gentlemen:

I have examined the balance sheet of the City of Berlin, New Hampshire, as at January 31, 1956, and the related statements of revenue and expenditures for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

In my opinion, the accompanying financial statements fairly present the financial condition of the City of Berlin as at January 31, 1956, and the results of its operations for the year then ended.

LEO J. CAMPAGNA, City Auditor

CITY OF BERLIN, NEW HAMPSHIRE
